

## KESS 2 Bangor team & Well-Being of Future Generations – 10.7.2017 Tim KESS 2 Bangor & Deddf Llesiant Cenedlaethau'r Dyfodol

How KESS 2 Bangor are addressing the Well-being of Future Generations Goals  
Sut mae KESS2 Bangor yn cyfarch nodau Deddf Llesiant Cenedlaethau'r Dyfodol

### Prosperous/Llewyrchus:

- Providing information documents on a USB drive instead of printing which is also contributing to waste reduction, i.e. contributing to cost saving and sustainability
- Guidance for changes to T&S sent as an email – in future such updates can be sent as a [link](#) rather than [attachment](#) – thus less temptation to print, thereby embedding this process into our communications.

### Resilient/Cydnerth:

- Reducing risk, increases confidence, e.g. implementing something to support better practice, such as Procurement procedure.

### Healthier/Iachach:

- Drink more water - to keep hydrated.

### More Equal/Mwy cyfartal:

- Supporting KESS 2 participants who state that they have additional needs on initial forms e.g. to help complete timesheets and other forms.
- Continuing to support KESS 2 participants on maternity/paternity leave whilst studying.
- Childcare – is a budget line which can be drawn on – supporting parents during their study.
- Identifying and satisfying training needs for KESS 2 participants through the KESS 2 PSDA.

### Cohesive Community/Cymunedau cydlynus:

- Bringing Participant, Academic and Company partners together at events and workshops.

### Thriving Culture/ Language/Diwylliant ac Iaith sy'n ffynnu:

- Support KESS 2 staff and participants with learning Welsh – ongoing, continuing.
- Sharing bilingual documents with KESS 2 partners – translating for HEI partners and providing bilingual material when requested.
- E.I.D.S is an opportunity to share cultures transnationally with Sweden, Portugal, Belgium and the Czech Republic. As hosted in Wales this year, Welsh culture was promoted and celebrated.

### Globally Responsible/Cyfrifoldeb byd-eang:

- KESS 2 projects reducing our carbon footprint through carbon capture and carbon reduction.
- KESS 2 projects reducing methane output e.g. methane capture projects for biofuels/biogas and other projects linked to agriculture and horticulture.

How KESS 2 Bangor are addressing the Five Ways of Working  
Sut mae KESS2 Bangor yn cyfarch y 5 Ffordd o Weithio

Long term/Hir dymor:

- Anything which has to be made will not change during the life of the KESS 2 operation, e.g. banners, website.

Prevention/Atal:

Integration/Intigreiddio:

- Sharing what has been identified as good practice across other projects.
- Partners have been sharing KESS 2 projects to go on the website.

Collaboration/Cydweithio:

- Working practices across the KESS 2 partners – this spills over into engagement with the KESS 2 partners.

Involvement/Cynnwys:

- Sustainability award at KESS 2 Annual Event.

Details of further action required:

Manylion o weithred ychwanegol sydd angen:

- Decide what it is we need to record; video conferencing is becoming more important but face-to-face meetings are important too. This requires planning in order to identify and plan these opportunities.

Support required from Sustainability Lab:

Cefnogaeth sydd angen gan y Lab Cynaliadwyedd

- Sustainability Lab wants to expand this good practice and to do this through the Doctoral School.
